

TUCSON AND SOUTHERN ARIZONA 2016 STATE OF THE MARKET HOUSING REPORT

Steven Schneider | (520) 990-7154
TheSchneiders@LongRealty.com | <https://schneiders.LongRealty.com>

JANUARY 2017

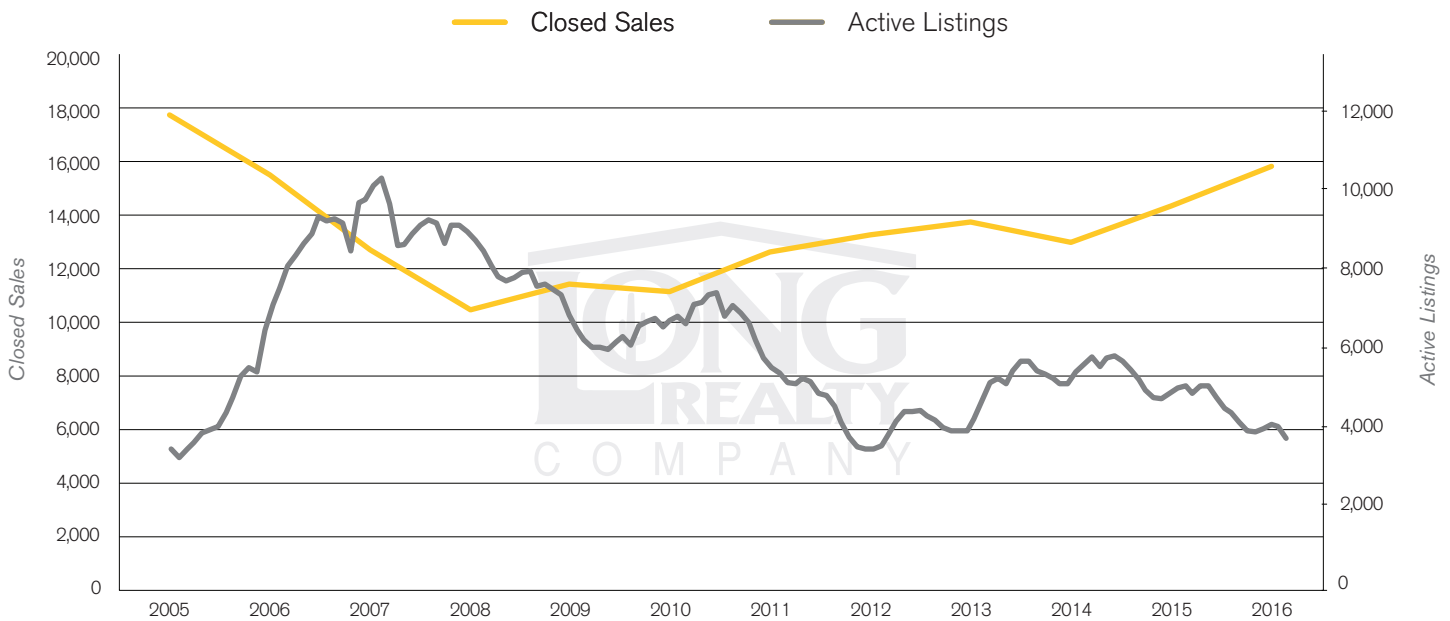

Tucson and Southern Arizona experienced a strong residential housing market in 2016. Increased sales along with less listing inventory resulted in a seller's market at many price points and a moderate increase in home prices. It's a function of supply and demand. Low interest rates and improved economic development in the area fueled housing growth and should continue to do so. Buyers may need to act quickly when purchasing and there is a new opportunity for homeowners who may be considering selling.

JANUARY 2017

As the housing recovery continues in Tucson, the median price of home sales in Tucson was **\$177,500** in December 2016, and **\$176,000** for all of 2016. Prices have recovered to October 2008 levels. This means that there is still opportunity for more home price appreciation before returning to the historical peak of 2006.

TUCSON MEDIAN SALES PRICE

Area	2016	% Change 2016 vs. 2015	Trend
Tucson	\$176,000	+4%	▲
Green Valley	\$154,900	+7%	▲
Sierra Vista	\$130,100	+2%	▲

MORTGAGE RATES RISE SLIGHTLY

30 year fixed mortgage rates have risen recently, however still remain historically low at slightly over 4%. Monthly loan payment on a median priced home in Tucson stands at \$842.

Statistics based on information obtained from MLSSAZ, GVSAMLS and SAMLS on 01/05/2017. Information is believed to be reliable, but not guaranteed.

JANUARY 2017

High buyer demand and a shortage of listing inventory at price points below \$400,000 resulted in a seller's market, which means buyers may have a more difficult time finding a home and face multiple offer situations. Higher price points remain in a buyer's market. Market conditions can vary greatly by price point and geographic area, so always check with your Long Realty agent for what is happening in your area.

JANUARY 2017

MARKET INSIGHTS

2016 was a year of continued recovery for our local housing market. What's in store for 2017? While the future is never certain, we expect the factors that contributed to market growth in 2016 will continue into this year.

Rosey Koberlein
Long Companies CEO

EMPLOYMENT & ECONOMIC DEVELOPMENT

Tucson has experienced employment expansion in 2016 from initiatives at Raytheon, Caterpillar, Vector Space, Comcast Center of Excellence and World View, totaling thousands of new jobs to the area. According to UA Eller Economist George Hammond - Arizona's economy continues to grow, with the Tucson metro area finally gathering momentum. In particular, Tucson's job growth began to accelerate this year and looks set to carry faster growth into 2017 and 2018. The forecast calls for Tucson's job growth to rise from 0.6 percent in 2015, to 1.4 percent this year, then to the 2.0 percent range in 2017 and 2018. Those growth rates translate into 5,300 net new jobs this year, 7,100 in 2017, and 7,600 in 2018.

MILLENNIAL HOMEBUYERS & AGING BOOMERS

While Millennials haven't purchased homes in force in past years due to recessionary conditions, tight mortgage lending criteria and high student loan debt, those trends are starting to change. Millennials in their 30's are starting families, and coupled with employment growth, are looking to become homeowners. In fact, according to a recent study, 65.3% of millennials associate the American Dream with buying a home – more than any other generation. As Millennials age, we expect an influx of home buyers. At the opposite end, aging baby boomers will be reaching retirement age and will create more home purchase and sale opportunities in Tucson and southern Arizona, a magnet for retirees.
